

**Summer Internships at DAHLIN** offer a unique hands-on experience with teams of diverse backgrounds and projects that challenge and seek the most creative and inspired individuals. Jumpstart your career here, and build valuable relationships in a rewarding, collaborative and fun atmosphere.

“I cannot begin to express my gratitude to everyone here at this wonderful company. Everyone has been so welcoming and positive and you all have created the best work environment that I’ve ever been in. Thank you for always answering my never ending list of questions, teaching me about the professional context of architecture, and giving me advice about the profession and my final thesis (terminal) studio. You’ve all provided me with skills and knowledge that I’m excited to apply in my final year. Thank you from the bottom of my heart.”—*Summer Intern*
